Summary

- As a dedicated Frontend Developer specializing in React Js and API Implementation, I'm committed to crafting exceptional user experiences. With a focus on code integrity and performance optimization, I stay updated on industry trends to deliver top-notch solutions. Let's connect and explore collaboration opportunities for mutual growth.

Experience

PairBytes Software Pvt. Ltd

June 2023- Present

Frontend Developer (SDE-1)

Delhi, India

- Collaborated cross-functionally to design and implement web application front-end solutions using HTML, CSS, JavaScript, React Js, and Tailwind CSS for responsive user interfaces.
- Ensured codebase integrity and adherence to coding standards through code reviews.
- Optimized code for improved performance and scalability, resulting in faster loading times and enhanced user experience.
- Continuously refactored and improved existing codebase to enhance readability, maintainability, and performance.
- Committed to staying updated with the latest advancements in front-end development technologies and techniques, integrating them into projects to optimize performance and user experience.
- Implemented APIs and worked on the design and development of an e-commerce website using Material UI, Tailwind CSS, and Git.

Projects

E-commerce Website (Online Food Website) | React.js, Tailwind CSS, Material UI

[Visit Website](#)

- Led the development of the website, ensuring the implementation of a user-friendly interface and smooth navigation.
- Utilized Tailwind CSS for responsive and visually appealing design elements.
- Incorporated Material UI components for consistent and intuitive UI elements.

Image-Search-Engine(SEO) | React js ,Material Ui,Tailwind Css,Axios(using Api Call)

[Visit Website](#)

- Developed an image search engine with React.js, Material UI, and Tailwind CSS, enabling keyword-based image searches.
- Utilized Axios for API calls to fetch and display images from external sources, providing real-time results.
- Optimized search functionality for fast and efficient image retrieval, enhancing user experience.

Divya Solar Power | React js,Tailwind css ,Material Ui, Axios and other

[Visit Website](#)

- Contributed to the frontend development of an e-commerce website for Divya Solar Power using React.js, Tailwind CSS, Material UI, Axios, and other technologies.
- Played a key role in implementing automated testing strategies for critical modules, resulting in a more stable release cycle.
